KEY PROJECTS

Citrus AI

- Led the development of a web-based AI subscription platform. Integrated a secure payment gateway and managed the full subscription workflow, including validation of usage quotas. Oversaw third-party API integrations, deployment, and mentored junior developers. Conducted thorough code reviews to maintain high code quality.

Soulathome

- Designed and developed a SaaS-based chatbot creation platform using the MERN stack. Implemented subscription and payment gateway flows, integrated with third-party PMS systems, and managed deployment processes.

Partskconnect

- Built a cross-platform mobile eCommerce application using React Native. Integrated payment solutions and managed deployment. Provided technical mentorship to junior developers and ensured code quality through consistent reviews.

Sedrapay

- Developed a web application for performing OCR on various document types. Delivered an in-platform solution for dataset generation to support YOLO model training. Managed deployment and infrastructure setup.
